

## The Olga Pocock & Carol Gibson Rooms

The Olga Pocock and Carol Gibson Rooms are interlinked and pleasant, sunny rooms occupying a central position within the College. They can be used as separate rooms with different set ups for different purposes, or as one inter-connecting space. They make a useful additional room for residential conferences centred on the Theatre and Monson Room, potentially working as a breakout room, conference support office or lounge area for delegates. The Olga Pocock room has windows on two sides, and the Carol Gibson room has French doors which can be opened up for a breath of fresh air.

Key Information
