

The Paul Oster Room

This is an elegant room with tall French windows opening onto a terrace with a view down the length of the LMH grounds. It is the main function room in the College's newly built Clore Graduate centre, which was completed in September 2016. The new building has the same neo-classical styling as the nearby Pipe Partridge building, and the Paul Oster Room is a graceful and flexible space for meetings and drinks receptions. It is very close to the entrance to College and near to the Monson Room and Simpkins Lee theatre.
